

Ringgold County Board of Supervisors Minutes

March 15, 2021

The Ringgold County Board of Supervisors met in regular session Monday, March 15, 2021. The meeting was called to order at 9:00 A.M with the following members present: Ron Landphair, Colby Holmes and Steve Knapp.

A motion was made by Holmes, second by Knapp to approve the agenda.

AYES: Unanimous NAYS: None

Engineer Jared Johnson met with the Board to provide secondary roads updates. The skid loader brush cutter and excavator brush cutter were out working in the north central, south central and southeast maintainer districts. Chainsaws have been working on cutting brush on the small isolated areas.

Spot rock was hauled to the northwest, southwest and southeast maintainer districts.

The sign truck was out working to repair damaged and/or deteriorated signs.

Work order updates:

WO666: Remove existing closed timber bridge and replace with low water crossing. Low water crossing will consist of a culver sheet pile headwall system. This design allows the culvert to handle smaller flows, and then overtop during high water events. Broken concrete will be placed along the banks immediately downstream. Located on 110th ave, south of 180th St.

WO668: Clean ditch for approximately 100 yards. Place ditched material in roadway. Located on 120th street between 270th ave and 28th ave. (complete)

FEMA project closeout will be completed on the county's end this week.

The easement with T Bar Farms has been acquired for the Redding Weir project, Johnson said.

Johnson went on to update the Board on the Washington 20 project. Last week the contractor worked on building the falsework for superstructure construction. All false caps are set and stringers are in place. Stringers are set to elevation at the interior span and east end span. The dirt subcontractor was on site last week working on ditch cut excavation west of the bridge. One of the two new entrances were installed, Johnson said.

The department has developed a construction plan set for the Tingley 4 bridge replacement project. The plans are for the construction of a single 8'x10'x50'-0, 0 deg. skew, reinforced concrete box culvert. Bid documents have been prepared to publicly advertise and let the project. The project will be advertised this week with a letting date set for 9am on March 29, 2021.

Gannon Hjerleid with Carosh Compliance Solutions met with the Board to review their HIPAA compliance program.

Sheriff Rob Haley met with the Board to review quotes for an upgraded camera system in the jail. The current provider is Accurate Controls. Their quote came in at \$119,966. Mainstay provides IT support for the jail; they also provided a quote. Their quote came in at \$86,154. However, to move forward with Mainstay, Accurate Controls has to provide additional support for the install. This cost will be \$9,913. It is Sheriff Haley's recommendation to move forward with the quote from Mainstay, including the added cost from Accurate Controls. The Board moved forward with approval.

RESOLUTION RC21-61

WHEREAS, the Ringgold County Board of Supervisors do hereby approve plans for L-TINGLEY 4(1)—73-80.

THEREFORE, a motion was made by Knapp and seconded by Holmes stating such.

The vote on the resolution: AYES: All. NAYS: None.

ATTEST: Amanda Waske, Auditor. Passed and approved March 15, 2021
